200 OK 496 ms 369 B Save Response

```
1 {  
2   "code": 200,  
3   "type": "unknown",  
4   "message": "8"  
5 }
```

The screenshot shows the Postman application interface. On the left, there's a sidebar with 'Collections' (Kate's Workspace), 'Environments', 'Flows', and 'History'. The main area displays a 'Petstore / User / Create user' collection. A 'POST Create user' request is selected, with the URL set to <https://petstore.swagger.io/v2/user>. The 'Body' tab is active, showing raw JSON data:

```
1 {
2     "id": 0,
3     "username": "kate",
4     "firstName": "kate",
5     "lastName": "kate",
6     "email": "kate",
7     "password": "kate",
8     "phone": "kate",
9     "userStatus": 0
10 }
```

The response status is 200 OK, with a response time of 118 ms and a size of 387 B. The response body is:

```
1 {
2     "code": 200,
3     "type": "unknown",
4     "message": "922337283685477589"
5 }
```

This screenshot shows another request in the same 'Petstore / User / Create user' collection. It's a 'GET Logs user into the system' request with the URL <https://petstore.swagger.io/v2/user/login?username=kate&password=kate>. The 'Params' tab is active, showing query parameters:

Key	Value	Description
username	kate	
password	kate	

The response status is 200 OK, with a response time of 118 ms and a size of 471 B. The response body is:

```
1 {
2     "code": 200,
3     "type": "unknown",
4     "message": "logged in user session:1744737882167"
5 }
```

The screenshot shows the Postman interface with a workspace named "Kate's Workspace". A collection named "Petstore" is selected. Under the "User" section, a GET request titled "Logout current logged in user session" is displayed. The URL is <https://petstore.swagger.io/v2/user/logout>. The response status is 200 OK, with a response time of 119 ms and a size of 370 B. The response body is JSON:

```
1 {
2     "code": 200,
3     "type": "unknown",
4     "message": "ok"
5 }
```

The screenshot shows the Postman interface with the same workspace and collection setup. A GET request titled "Get user by username" is displayed. The URL is <https://petstore.swagger.io/v2/user/{{username}}>. The response status is 200 OK, with a response time of 119 ms and a size of 481 B. The response body is JSON:

```
1 {
2     "id": 8,
3     "username": "kate",
4     "firstName": "kateryna",
5     "lastName": "zhovtanska",
6     "email": "string",
7     "password": "string",
8     "phone": "string",
9     "userStatus": 0
10 }
```

Kate's Workspace

Petstore / User / Updated user

PUT https://petstore.swagger.io/v2/user/{username}

Body (raw JSON)

```
{ "id": 0, "username": "string", "firstName": "string", "lastName": "string", "email": "string", "password": "string", "phone": "string", "userStatus": 0 }
```

200 OK

```
{"code": 200, "type": "unknown", "message": "9223372036854775807"}
```

Kate's Workspace
